Experience Summary

Having over 5+ years of IT experience, with more than 5 years as Developer (more than 3 Years SharePoint & more than 2 Years ASP.NET Developer) for different web based and database applications, I have sound technical and analytical expertise in addressing complex application and technical support experience. My exposure on web-based applications will be an added advantage specifically in the Application development space, which I can lead and undertake development and production support functions.

Technology

Listed below are the key technical systems and tools that I have experience.

Hardware / OS	Programming Language & Methodologies	Tools
✓ Windows based desktops and Servers ✓ Windows environments	✓ Languages: C#, PL/SQL ✓ Web: SharePoint 2013, ASP.NET, HTML, CSS ✓ RDBMS: MS-SQL Server ✓ Scripting: PowerShell, jQuery ✓ Awareness: MS - Forms, MS – Flow, Analysis, SharePoint Online	✓ Office 365 ✓ SharePoint Designer ✓ Visual Studio ✓ JEERA ✓ BMC ✓ Microsoft Forms ✓ Power BI
