

Summary of Experience:

- Playing a role of Offshore Lead for SharePoint team in the current project.
- 6.5+ years of strong experience in all phases of SDLC including Analysis, Design, Development, Management and Implementation of Intranet, web-based applications including Support and Maintenance.
- Extensive Experience in Microsoft Technologies including SharePoint 2010/2013/2016 and O365.
- Hands of experience in developing custom Web Parts, Lists, List Definition, Site Definition, Document Libraries, Workflows (SharePoint Designer, Nintex), Event Receivers, InfoPath forms and Application Pages.
- Hands of experience on creating CSS, JavaScript, Master Pages, List & Site Definition to enrich the portal using Visual Studio 2010/2012/2013/2015 and SharePoint Designer 2010/2013
- Hands of experience of multiple development platforms around SharePoint using Managed Server object model, Managed Client object model, CSOM, JSOM, REST APIs.
- Hands of experience on SharePoint 2013 add-ins development.

Skill Sets:

Development Tools	Office 365, MS Flow, PowerApps, SharePoint 2010/2013/2016, MS Visual Studio 2012/2010/2008, SharePoint Designer 2013/2010, TFS, Tortoise SVN, SSRS, Crystal Report
Database	SQL Server 2012/2008 R2/2005
Plug-in	DocuSign, Google Charts, MS Charts, AngularJS, SPServices
Web Languages	C#, JavaScript, JQuery, HTML, XML, CSS
Domain / Functional	HealthCare, Retail, Life Sciences

Certifications:

1. 70-532: Developing Microsoft Azure Solutions
2. 70-488: Developing Microsoft SharePoint Server 2013 Core Solutions
3. 70-480: Programming in HTML5 with JavaScript and CSS3
4. 70-573: Microsoft SharePoint 2010, Application Development

Professional Profile:

Organization	Designation	Duration
Accenture Solutions Pvt. Ltd., Pune	Soft. Engg. Team Lead	Apr 2015 - Till Date
Tata Consultancy Services, Pune	Systems Engineer	Apr 2014 – Mar 2015
Sonora Software Pvt. Ltd., Pune	Software Developer	Jan 2012 – Apr 2014

Educational Qualification:

- B.E. Computer from University of Pune in 2011 with First Class
- HSC/SSC from C.B.S.E. Kendriya Vidyalaya Sangathan in 2007/2005 with First Class

Achievements:

- Various Client Appreciations received.
- Star Performer of QTR Award in Accenture across Delivery Unit.
- Appreciation notes from leads in TCS.
- Design Thinking Champion in Accenture across Delivery Unit.

Project Experience:

Title:	Biogen Combi
Client:	Biogen Inc.
Technical Environment:	SharePoint 2013/2010, O365 Unily Based
Skills:	SharePoint 2010/2013, O365, SharePoint 2013 Search configuration, C#, ASMX, JQuery, JavaScript, HTML, CSS, SSRS, SQL 2008, PowerShell scripts, Nintex WF
Brief Introduction:	Biogen SharePoint MSP is program to support around 50+ SharePoint 2010/2013 sites, maintaining & enhancements of various requirements by clients, resolving issues in the form of Incidents & Service Request raised by tickets as P1, P2, P3 & P4 level. Working closely with clients on daily basis, handling daily status meetings, SLA reporting.
Responsibilities:	<ul style="list-style-type: none">➤ Offshore lead for SharePoint team➤ Customization, Bug Fixes, Enhancement Request, ticket resolving through VSM & Jira for Change Requests➤ Daily Status with Client & Coordinating Offshore-Onshore➤ SLA Reporting to Delivery Leads➤ Coding, Deployment, Production Support & Hypercare.
Team Size:	5

Title:	AGN SD Tool
Client:	Allianz
Technical Environment:	SharePoint 2013, SharePoint Designer, SharePoint 2010, SQL Server 2008/2012
Skills:	SharePoint 2010/2013, SharePoint 2013 Search configuration, C#, ASMX, JQuery, JavaScript, HTML, CSS, SSRS, SQL 2008, PowerShell scripts.
Brief Introduction:	This project is migration from SharePoint 2010 to SharePoint 2013 portal. The AGN Migration SD Tool is a workflow and reporting tool that supports the migration hardware End2End Process and provides the single source for Location List, Site Specific BoM, Ordering BOM, Staging Sheet, Installed hardware, Status of a migration. The tool consists of a SQL 2008 database and a SharePoint 2010. The SharePoint is used as web interface and as the basis for the role based access control model. The underlying tool database is a SQL 2008 server.
Responsibilities:	<ul style="list-style-type: none">➤ SharePoint 2013 search configuration➤ Provided approaches for the migration➤ Worked on document like Information Architecture, Requirement Analysis, and Estimation etc.➤ Customization & Enhancements, Migration from 2010 to 2013 site, Master Page design using Design Manager.➤ Designing, Coding, Deployment, Bug Fixes, Production Support & Enhancement

Responsibilities:	<ul style="list-style-type: none"> ➤ Custom and Out of the box SharePoint Deployment ➤ Workflow creation for SharePoint Site ➤ Designing & branding of site. ➤ Coding, Deployment, Bug Fixes, Production Support & Enhancement
Team Size:	5

Title:	Contract Automation
Client:	BlackBoard Corp. US
Technical Environment:	SharePoint 2010, Salesforce APIs, DocuSign APIs
Skills:	ASP.NET, C#, SharePoint 2007/2010, Taxonomy, Secure Store Application, DocuSign, Salesforce RSSBus, Timer Job, VS 2010.
Brief Introduction:	SharePoint application to automate the contracts, digitally signed by customers and contractors through DocuSign, maintaining the completed documents auto fetched from DocuSign using Timer Job and thus updating the same in the Sales force.
Responsibilities:	<ul style="list-style-type: none"> ➤ Designing, Coding, Deployment, Bug Fixes, Production Support ➤ Managed communications to customers to maintain positive relationships and high level of customer satisfaction ➤ Actively involved in creating custom web parts. ➤ Daily Standup meetings
Team Size:	2

Title:	ITSI Portal
Client:	ITSI Gilbane
Technical Environment:	SharePoint 2010, SharePoint Designer, Office InfoPath 2010
Skills:	ASP.NET, C#, SharePoint 2010, InfoPath 2010, SharePoint Designer Workflow, List Forms
Brief Introduction:	This web app developed in SharePoint 2010 is a Dashboard for ITSI-Gilbane. Includes various web parts such as News flash, Calendar events, Tasks, Content Editor, Content Query WPs, Sub Sites, and SharePoint WFs integrated with list and approve tasks notifications.
Responsibilities:	<ul style="list-style-type: none"> ➤ Requirement gathering & analysis, estimation ➤ Designing, coding, deployment, bug fixes & production support
Team Size:	2

Title:	Whiz Claim
Client:	Sanjeevan Hospitals
Skills:	ASP.NET, C#, Crystal Report, MS-SQL SERVER 2008
Brief Introduction:	This is a web based system, the general purpose of this application is to store & manage the patient's information who claims for cashless treatment through various health insurance co. The web app is developed to generate the report (Crystal reports) form for various TPAs with patient's info. Finally, bill is generated after the medi-claim is approved by the TPA.
Responsibilities:	<ul style="list-style-type: none"> ➤ Designing, Programming & Reporting Services (Crystal reports), Creating web parts. ➤ Crystal reports design & generation through asp.net C#. ➤ Creating tables and stored procedures in database
Team Size:	2

Title:	ITS-KPI Dashboard
Client:	Texas Health Resources (THR)
Skills:	ASP.NET, C#, Visifier Silverlight app, SharePoint 2010, MS-SQL SERVER 2008
Brief Introduction:	This website consist the ITS key performance indicators results in the form of various charts (Bar, Line, Stacked etc.) from various Excel files which managed and stored at SharePoint library.

Responsibilities:	<ul style="list-style-type: none"> ➤ Designing & Programming, Creating web parts, Coding, Planning. ➤ designing the database architecture along with the entities. ➤ Development/integration of 3rd party tools in the SharePoint Environment ➤ Design and developed admin panel ➤ Daily Client Meetings
Team Size:	2

Title:	Performance Measurement Executive Dashboard (Ph-2,3,4)
Client:	Texas Health Resources (THR)
Technical Environment:	SharePoint 2010, SharePoint Designer, C#, SQL Server 2008
Skills:	ASP. NET, C#, Visifier Silverlight app, MS Charts, Timer Job Service, SSRS Reporting (RDLC), SharePoint 2010, MS-SQL SERVER 2008
Brief Introduction:	Executive Dashboard is a web app developed for Executives in THR. Executives are informed via email (Sent from Timer Job) for certification of KPI data on Dashboard (Certification Workflow process), also they can view the detailed current/history data in the form of Charts. A monitoring workflow also provided for comments on indicators (Monitoring workflow process). This Dashboard gives executives to look after their KPIs performance.
Responsibilities:	<ul style="list-style-type: none"> ➤ Designing, Programming & Maintenance, ➤ Implementation of SSRS reports, Excel report generation. ➤ Implemented custom components in SharePoint. ➤ Deployment, Bug Fixes, Enhancement & Production Support ➤ Daily Client Meetings
Team Size:	2

Title:	Physician Survey
Client:	Texas Health Resources (THR)
Skills:	ASP.NET, C#, InfoPath 2010, SharePoint 2010, MS-SQL SERVER 2008
Brief Introduction:	Physician Survey is a SharePoint application used to survey the portal feedback from employees, customers of THR. The survey app is designed & developed with InfoPath 2010 designer. The data is managed and stored in SharePoint library.
Responsibilities:	<ul style="list-style-type: none"> ➤ Requirement gathering & analysis ➤ Estimation, Designing, Coding, Unit Testing, Bug Fixes ➤ Production Support & Enhancements
Team Size:	1
